Operating Instructions
For CABLEVISION
© Remote Control

UR2-CBL-CV04

1 Introduction
The remote control is designed to operate the Scientific-Atlanta® Explorer 8000, Pioneer Voyager DVR and the Pace Micro DVR Series set top boxes and the majority of TV's on the market.

2 Replacing Batteries
Before you program or operate the remote control, you must install two AA alkaline batteries.

- **STEP 1** Remove the battery compartment cover on the back of your remote control.
- **STEP 2** Check battery polarity carefully, and install the batteries as shown in the illustration below.
- **STEP 3** Replace the battery compartment cover.

Installing two AA alkaline batteries as shown here.

3 Button Functions

- **DEVICE KEYS**
  - A key to turn on and off your TV and Cablevision. They are also used to setup the remote control.
- **POW**
  - Power On/Off
- **TV**
  - TV/Video Input Selection
- **LEFT**
  - Tune to the next channel to the left.
- **RIGHT**
  - Tune to the next channel to the right.
- **UP**
  - Tune up a channel.
- **DOWN**
  - Tune down a channel.
- **GUIDE**
  - Displays the guide menu.
- **MUTE**
  - Mute sound
- **VOLUME**
  - Increases or decreases the volume.
- **LAST**
  - Returns to the last channel that was viewed.
- **STANDBY**
  - Turns the remote control on or off.
- **SELECT**
  - Selects the desired function.
- **SOURCE**
  - Changes the source input.
- **VCR**
  - Selects the VCR input.
- **CD**
  - Selects the CD input.
- **DVD**
  - Selects the DVD input.
- **MP3**
  - Selects the MP3 input.
- **GAME**
  - Selects the game input.
- **INPUT**
  - Selects the input source.
- **NO**
  - Selects the no input.
- **UP/CH**
  - Moves up one channel.
- **DOWN/CH**
  - Moves down one channel.
- **UP/DOWN**
  - Moves up or down the main menu.
- **LEFT/RIGHT**
  - Moves left or right the main menu.
- **UP/LEFT**
  - Moves up one menu.
- **UP/RIGHT**
  - Moves down one menu.
- **UP/MENU**
  - Displays the main menu.
- **DOWN/MENU**
  - Moves down one menu.
- **UP/NUMBER**
  - Moves up one menu.
- **DOWN/NUMBER**
  - Moves down one menu.
- **UP/SCALE**
  - Changes the scale.
- **DOWN/SCALE**
  - Changes the scale.
- **UP/SELECT**
  - Selects the desired function.
- **DOWN/SELECT**
  - Selects the desired function.

4 Operations

Default State:
- Device Default: Scientific-Atlanta® Explorer 8000
- Volume Default: TV volume and mute through the TV, with the option of controlling volume and mute through the Cable. Refer to Section D for programming the volume and mute through your Cable.

5 Programming the Remote Control

The remote control can be programmed by pressing in a three digit code number that corresponds to particular manufacturers and brands of TV.

The three-digit code numbers are listed in the code table of the instruction manual.

- **STEP 1** Turn on the TV you wish to program.
- **STEP 2** Press the [TV] button and the [SEL] button simultaneously for 3 seconds. The iO button will turn on indicating the unit is ready to be programmed.

*Tip: The iO button will light on for 20 seconds. The next step must be entered while the iO button is on.

- **STEP 3** Point the remote control toward the TV and enter the three-digit code number assigned to your brand from the code tables.

*Tip: The TV will turn off when the correct three-digit code number has been entered. You can verify you have selected the correct code by pressing the [MUTE] button, the TV should turn on or turn off.

- **Note**: If there is more than one three-digit number listed for your brand, try one code number at a time until your TV turns off.

- **STEP 4** Store the three-digit code number by pressing the [SEL] button again. The iO button will blink twice to confirm that the code has been stored.

*Note*: Try all the functions on the remote control. If any of the functions do not work as they should, repeat from Step 2 using the next three-digit code number from the same brand list.

B. Auto Search Method.

If the three-digit code numbers assigned to your brand do not turn off your TV or the code tables do not list your brand, you can use the Auto Search Method to find the correct three-digit code number for your TV by the following steps:

- **STEP 1** Turn on the TV you wish to operate.
- **STEP 2** Press the [TV] button and the [SEL] button simultaneously for 3 seconds. The iO button will turn on.

*Tip*: The iO button will light on for 20 seconds. The next step must be entered while the iO button is on.

- **STEP 3** Press the [TV] button to store the code. The iO button will blink twice to confirm that the code has been stored.

*Tip*: You can verify that you selected the correct code by pressing the [MUTE] button. The TV should either turn on or turn off.

- **STEP 4** Press the [SEL] button to store the code. The iO button will blink twice to confirm that the code has been stored.

C. To Find the Three Digit Code Number That was Stored in the TV.

- **STEP 1** Press the [TV] button and the [SEL] button simultaneously for 3 seconds.

*Tip*: The iO button will light on for 20 seconds. The next step must be entered while the iO button is on.

- **STEP 2** Press the [SEL] button to store the code. The iO button will blink twice to confirm that the code has been stored.
### D. Program the Volume Controls.

By following the steps below, the user can program the volume controls (Volume UP, Volume Down and MUTE). The default volume control settings on the remote control is TV volume control. If you wish you can control the volume via your CABLE box, use the following steps.

1. **Press the [CBL] button and the [SEL] button simultaneously for 3 seconds.** The iO button will blink twice to confirm the operation.

2. **Press the [VOL -] button.** The iO button will blink twice to confirm the programming.

3. **Press the [VOL +] button.**

4. **Press the [CBL] button.** The iO button will blink twice to confirm the programming.

### To return to original state:

If you wish you can control the volume via your TV, repeat the above steps by pressing [TV] in STEP 3.

### E. Low Battery Warning.

When the battery is low (20% - 23%) and needs to be replaced with fresh batteries, the iO button will blink whenever a [DEVICE] button is pressed to turn on an equipment.

### F. Memory Lock System.

This remote control is designed to retain programmed memory for 10 years even after batteries are removed from the remote control.

### G. Write your TV Set-up codes:

Set-up Code Number:
