# The Viking 68

Luxury sportfishing yacht outfitted for incredible entertainment

Viking continues its dominance of the sportfishing yacht industry with the introduction of the Viking 68, a four-stateroom blue-water convertible with unmatched performance, bulletproof construction, luxury interior accommodations, advanced propulsion and boat-control technologies.

The Viking 68 is designed and engineered to function equally as well as a tournament-ready offshore runner and a cruising yacht with all the conveniences and technology that owners have come to expect from Viking.

A spectacular custom audio video technology package is installed by Atlantic Marine Electronics, a URC master dealer with years of experience in the design and integration of premium automation and control technology for marine applications.

The fabulous salon area and four staterooms are equipped with a Total Control advanced system controllers and TRC-1080 handheld remote controls. The standard entertainment system features Samsung 4K TVs and 4K Blu-ray players – plus a Nexus 21 pop-up TV lift in the salon. It includes Marantz AV receivers with Episode speakers, subwoofers and amplifiers.

The URC Total Control system sits on a commercial-grade network that includes a Luxul ABR-5000 Epic router, wireless controller kit and access point with Araknis 24-port PoE switch, assuring rock-solid system performance and reliability.

For even more robust entertainment, owners may elect to upgrade the audio video package with Just Add Power video distribution, enhanced speakers and amplifiers, DirectTV, AppleTV, Roku and more.

Adding to the personalized experience, Atlantic Marine Electronics professionally programs all Total Control onscreen menus with customized graphics for a truly personalized automation and control experience.

"This boat is going to be a big hit," says Viking Design Manager David Wilson. "We were able to bring some of the attributes of our larger models to the 68 while maintaining the efficiencies of a smaller sportfishing boat."

### About Total Control 2.0

URC Total Control delivers premium automation and control for commercial and residential applications. This comprehensive product line includes tabletop and in-wall touchscreen controllers, powerful quad-core and dual core system processors, mobile apps, digital music streaming, voice control integration and much more. The line integrates with thousands of AV and connected systems, delivering a robust and highly-intuitive user experience.

For nearly 30 years, URC has been a leader and innovator in the global control market with over 100 million remote controls sold in the past 10 years alone. URC products are installed in prestigious properties around the world, including The White House and Air Force One.
