

Programmable IR/RF Remote Control with 2" LCD

OVERVIEW

Standalone programmable handheld remote provides single-room IR control – TV, A/V components, cable and satellite boxes. It is ideal for smaller home theater installations and basic A/V control in kitchens and bedrooms. The 2" LCD screen displays up to 18 devices (three pages, six devices per page) plus 48 favorite channels. When used with a compatible Complete Control base station, the MX-450 controls integrated entertainment components through walls and cabinet doors, or even from outside. There is no need to point the remote control at the components or even be in the same room.

- Handheld remote with 2" color LCD
- Displays up to six buttons per screen
- Ergonomic design with backlit hard button keypad
- Delivers single-room, one-way control of IR devices
- Controls A/V through walls and cabinet doors, or from outside - compatible base station required
- No need to point remote at components or be in the same room
- Operates on standard AA alkaline batteries
